Jelsa Art Biennial is a festival of contemporary art, specific for artworks that are mostly realized in public space, created with the aim of bringing contemporary art closer to a wider audience and emphasizing practices that convey the message of social responsibility and sustainability. Reflecting on different aspects of the sixth planet of our Solar system, Jelsa Art Biennial 2021: Saturn at Opposition considers time as an essential, building dimension of our existence, the bearer of the undeniable property to destroy as much as it creates. In accordance with this principle, the main locations of research and presentation of the Jelsa Art Biennial were selected: on the one hand, abandoned and decrepit objects that are unstoppabley devoured by nature, on the other locations in nature where life flourishes and is renewed, and which is unstoppabley devoured by man.

\*Detaljne informacije o radionicama i vodstvima pronađite na facebook.com/jabiennial/

Jelsa Art Bijenale je festival suvremene umjetnosti, specifičan po radovima koji su većinom izvedeni u javnom prostoru s ciljem približavanja suvremene umjetnosti što široj publici te naglašavanju umjetnosti koja pronosi poruku o društvenoj odgovornosti i održivosti. Osvrćući se na različite aspekte šestog planeta Sunčevog sustava, Jelsa Art Bijenale 2021: Saturnu opoziciji, razmatra vrijeme kao suštinsku, građevnu dimenziju našeg postojanja, nositelja neporecivog svojstva da koliko toga stvori, zauzvrat jednako uništi. U skladu s tim principom lokacije istraživanja i prezentacije Jelsa Art Bijenala su odabrane: s jedne strane napušteni objekti koje nezaustavljivo preuzima priroda, s druge strane, lokacije u prirodi u kojoj život buja i obnavlja se, a koje nezaustavljivo preuzima čovjek.
